PRODUCT SPECIFICATIONS

NC530HS

Round Capacity	1.25" (min.); 20" (max.)
Square Capacity	1.25" x 3/4" (min.); 20" x 20" (max.)
Blade Speed	15-120 m/min
Blade Drive	20 H.P (15 kW)
Hydraulic Pump	5 H.P (3.7 kW)
Coolant Pump	1/2 HP (375 W)
Blade	2-5/8" x 21' 10-1/2" x 0.063
Blade Tension	Hydraulic
Machine Weight	15,400 lbs.
Table Height	29-1/2"

Automatically positioned guide arm with anti-vibration feature.

Coolant supply stays centered on the cut.

Dual wire brushes ensure chip removal for extended blade life.

Hydraulic bar feed system ensures accurate positioning.

Anti-vibration roller for more accurate cuts and longer blade life.
